- **To :** All Concerned Partners
- **Subject :** Statement on REACH Provisions from WIZnet, Integrated Circuit Products

To ensure a common approach toward the legal obligations and timelines under the European Union's REACH Community Regulation (Registration, Evaluation, Authorization and Restriction of Chemical substances, EC 1907/2006), global Semiconductor device manufacturers have developed a clear common statement concerning REACH and its impact on the industry. WIZnet Co., Ltd has participated in the development of this common understanding and has been preparing both our company and our supply chain for the requirement under REACH. We are actively monitoring the specifics of the REACH requirements and how such requirements apply to our operations.

With regard to the 173 Substances of Very High Concern (SVHC) candidate list published on the European Chemicals Agency (ECHA) website, based on information from our suppliers and internal chemical screening processes WIZnet does not use any of the 173 chemicals to manufacture IC devices, and does not contravene the restrictions of Annex XVII of the REACH regulations. If there is any change, WIZnet will provide the information to our customers in a timely manner concerning their use or non-use within finished IC products.

Sincerely yours,

Yun Bong Lee
CEO/President WIZnet, Co.
